KEEP AN EYE, ON YOUR FINANCIAL TRANSACTIONS TOO.

Be safe with Citi.

In today's day and age, it is extremely important to be aware of fraudulent practices to secure yourself against fraud. SIM swap is one such practice used by fraudsters to steal your identity.

What is SIM swap?

Fraudster collects victim's personal banking information. Fraudster approaches victim's mobile operator with victim's fake identity proofs and obtains a duplicate SIM card. Mobile operator deactivates the original SIM card post successful verification and issues a replacement SIM.

Fraudster generates the One-Time Password (OTP) which comes on the new SIM and carries out account transactions without victim's knowledge.

TIPS TO SAFEGUARD YOURSELF AGAINST SIM SWAP:

If your mobile stops working for unusual reasons, check with your mobile operator immediately.

Never disclose your Internet banking password/ATM PIN/Telephone PIN to anyone.

Register for both SMS as well as email alerts to stay informed about transactions on your account.

Never respond to unknown mails or calls asking your account details and registered mobile number.
